

REQUIREMENTS AWARENESS & EDUCATION: SUPPORTING YOUR UNDERSTANDING

WHAT THE OPPORTUNITY OFFERS YOU

MSS Global is uniquely able to offer our experience as the only internationally accredited Certification Body to validate performance against any combination of international standards, contractual and regulatory requirements, and ethical commitments (including human rights and CTIPs), including in some of the most challenging and fragile operating environments.

We tailor a course to support your unique demands. You will be guided through the requirements so that you gain confidence in wording and interpretation and recognise how they apply to you.

We use a progressive, logical approach that directly supports your understanding, with course places limited to ensure optimum learning opportunity.
